

We have four seasons in a year. I can do many interesting things in each season. In spring, the weather is cool and wind, I can fly kites when its wind.

And I can go hiking with my family when its sunny and cool.

I like hiking. Summer is hot in the north of China, but its not long time. I often go swimming. It can make me healthy and strong. I can also wear my beautiful dresses. Fall is a season with harvest.
